#### **PREFACE**

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

An ammunition storage area is located in a wooded area 11 kilometers (km) south-southwest of the center of Bobruysk. The installation is served by an all-weather secondary road which connects with the Bobruysk-Parichi highway. Another all-weather road connects the storage area to the west end of Bobruysk Airfield. Four km to the southeast on the same road network is the Bobruysk Special Weapons Storage Site. The Bobruysk-Brozha railroad passes 1.7 km west of the area and a spur from this railroad to the Bobruysk Airfield POL storage area passes 0.7 km east of the ammunition storage

area; however, no transloading point was observed.

The installation covers 92 acres, is secured, and contains 13 ammunition storage buildings dispersed in the woods. The total roof cover is approximately 53,400 square feet.

The area is covered by TALE [REDACTED] 25X1D  
tography and by KEYHOLE missions between [REDACTED] 25X1D  
Comparative analysis reveals that three storage buildings were added and the internal road network improved between [REDACTED] 25X1D  
No apparent change was observed between [REDACTED] 25X1D

## DESCRIPTION OF INSTALLATION

### Road Service

An all-weather secondary road provides access to the Bobruysk-Parichi highway.

### Ammunition Storage Area

There are 13 ammunition storage buildings ranging from 180 by 55 to 40 by 20 feet. Total

25X1D  
25X1D  
25X1D  
roof cover is approximately 53,400 square feet. Three storage buildings were added between [REDACTED] 25X1D  
The buildings are well dispersed and directly accessible to a network of internal roads.
